USSR LIVESTOCK NUMBERS; ANIMAL PRODUCT YIELDS, DELIVERIES TO STATE

25X1

USSR

During the period from July 1950 to July 1952, the total number of all types of livestock in the USSR increased by 26.7 million head. Gross and commercial animal products output in the USSR as a whole now exceeds the prewar level (1)

Estonian SSR

During the last 2 years, the number of cattle in kolkhozes of the republic has increased by 40 percent and of hogs by 70 percent. As compared with 1945, the number of cattle in kolkhozes of the republic has increased four times and of hogs more than nine times (2)

Latvian SSR

In 1952, as compared with 1951, the number of head of collectivized livestock in kolkhozes of Latvian SSR increased as follows: cattle, by 12,000 head; hogs, by almost 18,000 head; and sheep, by 4,000 head. (3)

In 1952, as compared with 1950, the number of head of livestock in kolkhozes of Rikhskaia Oblast increased as follows: cattle, 10.3 percent, hogs, 44.4 percent, sheep, 40 percent, and fowl, 73.8 percent. As of 1 December, kolkhozes of the oblast had already exceeded the 1952 plan for increase in number of head of livestock (4)

Belorussian SSR

In 1952, about 5,000 livestock shelters were built in kolkhozes of the republic (5)

CONFIDENTIALUkrainian SSR

Before World War II, sovkhoses of the republic had, per 100 hectares of plowland, 11.1 head of cattle, 14.1 head of hogs, and 11.3 head of fowl; in 1951, corresponding figures were 16.3, 28.8, and 49.

During the last 3 years, average milk yield per cow in sovkhoses of the republic increased by 533 kilograms. In 1951, sovkhoses delivered to the state, per 100 hectares of plowland, 25 more quintals of milk, 10 more quintals of meat and 1,600 more eggs than in 1940. (6)

Voroshilovgradskaya Oblast fulfilled the 1952 plan for delivery of wool 102.2 percent and that for delivery of bristles 101.9 percent. (7)

Kolkhozes, sovkhoses, subsidiary enterprises, and individual producers of Chernovitskaya Oblast had fulfilled the 1952 plans for delivery of animal products to the state on 1 December. The plan for delivery of meat had been fulfilled 100 percent, including that for delivery of hogs by kolkhozes 127.7 percent; 600 more tons of meat had been delivered than as of 1 December 1951.

The 1952 plan for delivery of milk had been fulfilled 100.1 percent by 1 December, 84 more metric tons had been delivered than as of the same date in 1951. The plan for delivery of eggs had been fulfilled 101.5 percent as of 1 December, 1,691,000 more eggs had been delivered than as of the same date in 1951.

The 1952 plan for delivery of wool had been fulfilled 124.5 percent on 1 December; 27.6 percent more wool had been delivered than as of the same date in 1951.

Delivery of livestock and animal products is continuing. (8)

Moldavian SSR

During the period from 1 November 1951 to 1 November 1952, the number of livestock in kolkhozes of the republic increased as follows: cattle, 8.6 percent, hogs, 18.5 percent, sheep and goats, 28.8 percent; horses, 9 percent; and fowl, 55.2 percent. (9)

Azerbaijani SSR

As of 1 December, kolkhozes of the republic had fulfilled the 1952 plan for development of collectivized livestock as follows: cattle, 100.1 percent; sheep and goats, 103.4 percent, hogs, 105.3 percent; and horses, 107.6 percent. The plans for delivery of all types of animal products to the state had also been exceeded. (10)

RSFSR

In 1951 as compared with 1948, kolkhozes of Leningradskaya Oblast delivered to the state 60 percent more meat and 31 percent more milk and sovkhoses of the oblast delivered four times more meat and 80 percent more milk. (11)

It was noted at the plenum of the Yaroslavl'skaya Oblast Party Committee that there are serious shortcomings in the development of collectivized animal husbandry in kolkhozes of the oblast. The plan for increase in number of collectivized livestock has not been fulfilled. In some rayons, a reduction in the number of head of livestock has been permitted. The fodder base is still inadequate. Every year, the plans for meadow and pasture improvement, sowing of

CONFIDENTIAL

perennial and annual grasses, and planting of fodder root and ensilage crops are not fulfilled. MTS do not extend the necessary aid to kolkhozes to create an adequate fodder base.(12)

At a meeting of the Chitinskaya Oblast Council of Workers' Deputies, Isayev, chief of the Chitinskaya Oblast Agricultural Administration, reported that in 1952 the plan for increase in number of livestock was exceeded for all types of livestock. The number of head of sheep increased by almost 50 percent as compared with 1951. Livestock productivity increased. Kolkhozes of the oblast fulfilled the plans for wool, milk, and meat deliveries ahead of time.(13)

During the last 3 years, the number of head of livestock in sovkhoses on Sakhalin Island increased as follows: cattle, 36 percent; hogs, two times; and fowl, four times (14)

Uzbek SSR

Kolkhozes of Ferganskaya Oblast fulfilled the 1952 plan for delivery of wool to the state by 27 December. Delivery in excess of plan is continuing.(15)

Surkhan-Dar'inskaya Oblast successfully fulfilled the 1952 plans for cocoon, wool, and animal products procurement by 27 December.(16)

Turkmen SSR

In 1952, more than 700,000 sheep were shorn with electric shearing machines in kolkhozes of the republic; this number was 3.5 times as great as in 1951.(17)

Kirgiz SSR

During the last 5 years, the number of head of livestock in the republic increased as follows: cattle, 87 percent; sheep, 113.6 percent; horses, 80.8 percent; and fowl, 750 percent (18)

In kolkhozes of the republic, thoroughbred and improved horses comprise about 20 percent of all horses, and purebred cattle and sheep comprise 22 and 60 percent, respectively, of all cattle and sheep.(19)

Sovkhoses of the Ministry of State Farms Kirgiz SSR fulfilled the 1952 plan for meat delivery to the state by 16 November. The plan for milk yield was fulfilled 102 percent.(20)

During the first 11 months of 1952, the average milk yield per cow in sovkhoses of the republic was 2,195 kilograms; this figure compares with 2,000 kilograms planned (21)
